

AVS2

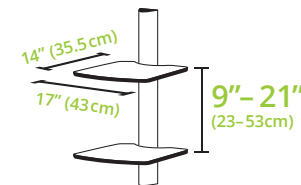

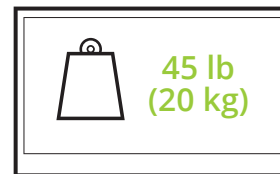

A little added support for your toys.

The AVS2 is a wall-mounted shelving unit which offers two tempered-glass shelves for the storage and display of your devices. With a simple installation, adjustable heights, and a sleek cable management system, the AVS2 is the perfect addition to bring structure and organization to your home entertainment system.

Use an AVS2 to hold your Blu-ray player, satellite receiver, gaming console, cable TV box or other devices. The beauty of the design is that you can add as many AVS products as you need to keep everything together.

- Product weight: 16.7 lb (7.6 kg)
- UPC: 800152015606

SUPPORTS 45 POUNDS

The AVS2 supports several components with a total weight of up to 45 pounds. It's best mounted to wood studs or concrete, but can also mount to drywall with the supplied anchors.

INTERLOCKING WALL PLATES

The AVS2 has two separate interlocking wall plates that can be attached together to build a 33" bracket, or installed individually at two different locations. Add on to your AVS system with additional AVS units – they all interlock.

SLEEK CABLE MANAGEMENT

Each AVS series wall plate includes two plastic clips with five separate raceways to hide your power and signal cables. You can route the cables to exit at the ends of the wall plate or on either side of the cover.

CONCEALED CABLES

Once you've routed your cables, attach the plastic covers to conceal the inner workings. Safely tuck away your cables to give your home entertainment system a clean, modern look.

ELEGANT LOOK

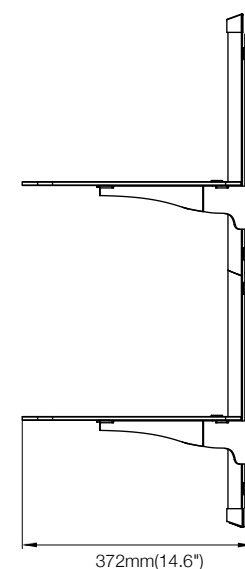

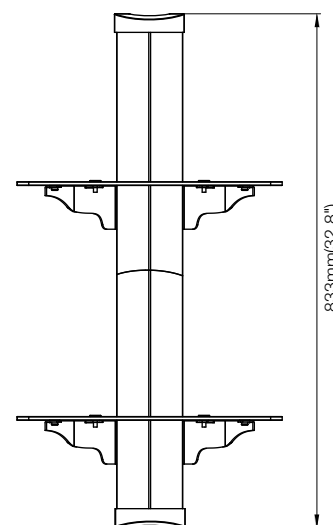

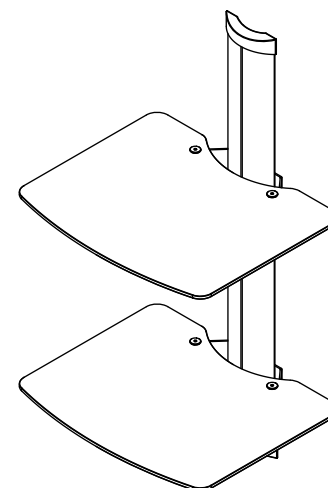

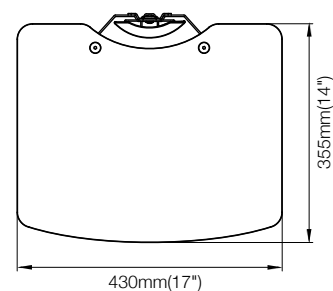

For a sophisticated look, the AVS2 provides sleek tempered-glass shelves to hold your digital devices.

FLEXIBLE CONFIGURATIONS

Each AVS2 box includes two complete sets of hardware so that you can install them together for a 33" wall plate containing two shelves, or as two separate shelves.
