

# AVS3

## Support for your whole digital army.

The AVS3 features three tempered-glass shelves to hold all the devices that complete your home entertainment system.

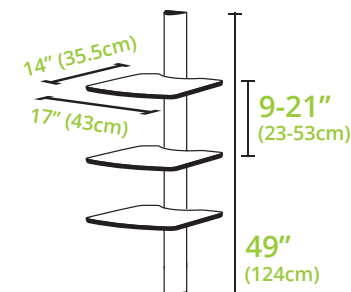

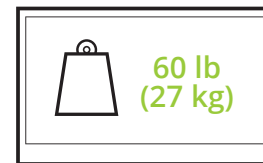

Audio equipment. Satellite. Cable. Gaming Consoles. Blu-ray.

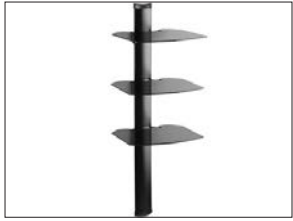

Keep it all together in a clean and sophisticated way. Designed to fit your specific needs, the modular AVS3 can be assembled several ways to create the ultimate shelving system.

Easy installation and clever attachable covers for cable management ensure that you get that modern look you thought was impossible, until now.

## SUPPORTS 60 POUNDS

The AVS3 supports several components with a total weight of up to 60 pounds. It's best mounted to wood studs or concrete, but can also mount to drywall with the supplied anchors.

## INTERLOCKING WALL PLATES

The AVS3 has three separate interlocking wall plates that can be attached together or installed separately. When combined, the wall plates interlock together giving you more range (vertical height adjustments) to place the AVS3 shelves that hold your digital devices.

## SLEEK CABLE MANAGEMENT

The AVS3 includes two plastic clips with five separate raceways to hide your power and signal cables. You can route the cables to exit at the ends of the wall plate or on either side of the cover.

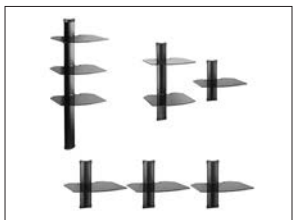

## CONCEALED CABLES

Once you've routed your cables, attach the plastic covers to conceal the inner workings. Safely tuck away your cables to give your home entertainment system a clean, modern look.

## ELEGANT LOOK

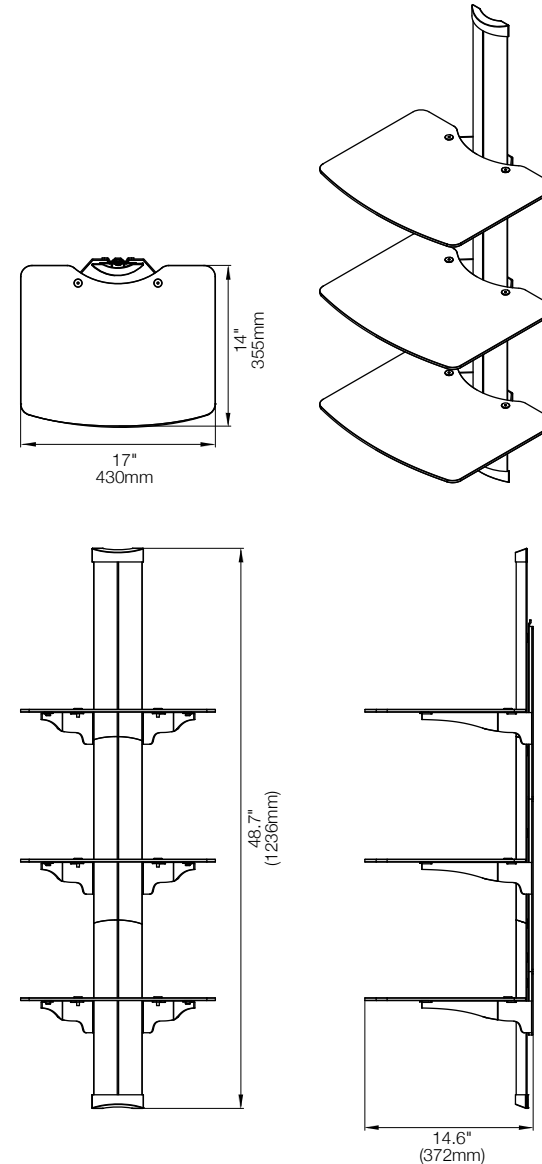

For a sophisticated look, the AVS3 provides sleek tempered-glass shelves to hold your digital devices.

## FLEXIBLE CONFIGURATIONS

Each AVS3 box includes three complete sets of hardware so that you can install them together for a 49" wall plate containing three shelves, as three separate shelves, or as a single and double shelf.
