

CM600G

The CM600G TV Ceiling Mount features a galvanized steel frame and stainless steel hardware to prevent rust when mounted outdoors. Engineered to provide a quick installation on flat and sloped ceilings, its telescoping extension pole offers 23" of height adjustment and 360° of rotation, ensuring your TV is positioned exactly where you want it. Along with adjustable leveling screws, its mounting brackets feature four discrete tilt options, giving you the ability to angle your TV independent of the pole. Tilt your TV up to 15° forward to improve line-of-sight, or 6° backward to compensate for potential lean. Unobstructed cable management is also provided through the entire length of the mount, keeping your cables safe and out of sight.

FEATURES & SPECIFICATIONS

- Fits most flat panel TVs from 37" to 70"
- Supports TVs up to 110 lb (50 kg)
- Accommodates VESA sizes from 75x75 to 600x400
- Galvanized steel construction and stainless steel hardware allow for outdoor installation
- Swings 90° to accommodate sloped ceilings
- Accessible tilt mechanism provides +15° to -6° of tilt
- 360° of swivel
- Height adjustable from 42.7" to 66.3" (108.5 to 168.5 cm) from ceiling
- Integrated cable management
- Includes manual and all mounting hardware for wood stud and concrete installation
- Five year manufacturer's warranty
- Shipping box weight: 20.9 lb (9.5 kg)
- Shipping Box Dimensions: 41.5" x 8.2" x 4.3" (105.5 x 20.8 x 11 cm)
- Product Weight: 19.8 lb (9.0 kg)
- UPC: 800152719115

OUTDOOR USE

Assembled with stainless steel hardware, the CM600G's galvanized steel frame and powder-coated finish are designed to withstand rust and the increased wear and tear associated with outdoor use.

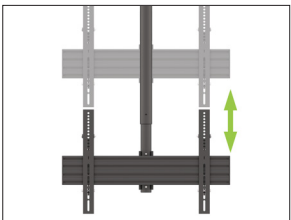

EASY INSTALLATION

The detachable mounting plate can be easily installed to any wood stud or concrete ceiling. Simply slide the extension pole into place and secure it to complete the installation.

ANGLED CEILINGS

To accommodate sloped ceilings and support beams, swing the extension pole up to 90° and lock it in place at the preferred angle. This also allows the CM600G to be installed on a wall, if needed.

ADJUSTABLE HEIGHT

Ensure your TV is positioned at an ideal height by extending the telescoping pole from 42.7 to 66.3 inches. Adjustments can be made in 2-inch increments.

SWIVEL & TILT

Along with 360° of rotation, the CM600G offers four discrete tilt options. In 5° increments, angle the TV brackets up to 15° forward to improve line-of-sight, or tilt them 6° backward to compensate for potential lean.

INTEGRATED CABLE MANAGEMENT

The extension pole's hollow core provides an unobstructed path to route your cables, while an opening in the mounting plate allows them to continue through the ceiling for a clean and professional setup, along the way.
