

SB100

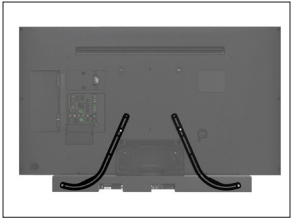

Universal Sound Bar Mount

The SB100 universal sound bar mount allows you to secure virtually any sound bar to your flat panel TV. Designed to fit discretely above or below your screen, this two-piece bracket is constructed out of solid steel and safely holds up to 22 pounds. Use it with a wall mount to maintain proper orientation of your speaker, or attach it above your TV to avoid obstructing your IR sensor while using a stand.

- Shipping box dimensions: 21.1" x 6.5" x 1.4" (53.6 x 16.5 x 3.5 cm)
- Product weight: 1.5 lb (0.7 kg)
- UPC: 800152717470

UNIVERSAL DESIGN

The SB100 is designed to fit almost any VESA-compliant flat screen TV. Its two independent brackets can be arranged to accommodate a variety of mounting hole patterns, including close or wide-set holes found on most sound bars.

IMPROVED SOUND

For optimal sound quality, use the SB100 with your full motion TV wall mount. Positioning your sound bar to face you will ensure your ears pick up the full range of audio frequencies, regardless of where you're seated.

MULTIPLE CONFIGURATIONS

Depending on your setup, the SB100 can be installed above or below your TV. If you're using a TV stand, attach your sound bar above your screen to prevent it from blocking your TV's IR sensor.

SAFE AND SECURE

Constructed out of 2.5mm steel, this versatile mounting accessory safely supports speaker bars up to 22 pounds.
